KYC360

# Streamline Compliance with our / DataBridge Solution

Transfer data between systems without coding or rekeying

DataBridge simplifies the integration process between KYC360 and your systems, addressing one of the biggest challenges in the adoption of digital onboarding. Compliance and risk teams can easily map fields between systems via a simple, no-code user interface, eliminating the need for technical expertise. Through seamless, bidirectional data flows, DataBridge facilitates rapid onboarding and efficient data updates.
